Schedule A – License Fee Assessment Calculation – May 1, 2021

Line 2, Col. A and B – “All other revenues” must be classified as either gas or electric based on their relationship to one or the other, (ex: wheeling revenues and pole rents are related to electric; forfeited discounts from gas sales are related to gas). If they cannot be readily attributed to gas, (steam revenues), you must report other revenues in Column A.

Line 3b – Except for municipal light, heat and power companies, the actual cost of purchased power as reported to the Public Service Commission of Wisconsin (PSCW) may be deducted on Line 3, if **1-4** apply or if **5** applies:

1. Wholesale rates were approved by federal or state regulatory agencies; and
2. Power purchased for resale included in operating revenues represents more than fifty percent of the power sold; and
3. Power is not purchased from an affiliated interest as defined in [sec. 196.52\(1\)](#), Wis. Stats.; and
4. Revenue from that purchased power is included in the seller’s gross revenues reported to the PSCW. For Class C and D utilities, the amounts shown on Line 1, columns A and B of this form should equal operating revenues reported at Page F-1, Line 7, Column C of the PSCW Report.

5. Except for municipal light, heat and power companies, 50 percent of the actual cost of purchased power as reported to the PSCW may be deducted on Line 3 if the utility purchases more than 90 percent of its power and has less than \$50,000,000 of gross revenues

Line 3f – Transmission companies – may exclude, on Line 3, revenues from service provided to a public utility that is subject to the license fee, as defined in state law ([sec. 196.01\(5\)](#), Wis. Stats.), or to a cooperative association organized under [Ch. 185](#), Wis. Stats. for the purpose of providing electricity to its members only.
